

Kanittha Somboon

ABOUT ME

Motivated Computer Science graduate from Kasetsart University with hands-on experience in system analysis, web development, and UI design. During my internship as a System Analyst, I engaged in real-world business processes and collaborated with development teams to design effective solutions. I'm highly interested in pursuing a career as a System Analyst or Web Developer, where I can apply my skills and experience to contribute to the success and growth of the organization.

SKILLS

Programming Languages	Python ,HTML ,CSS , Javascript ,PHP
Framework & Libraries	Node.js ,React.js ,Express.js ,TailwindCSS ,Bootstrap ,Pasdas ,SKLearn ,Matplotlib ,Styled- Components ,Ant Design , Chart.js

EXPERIENCES

2025 - Cooperative Education Internship | Metthier Co., Ltd. (A subsidiary of SKY ICT Group) System Analyst Internship

- Completed a 4-month internship as a System Analyst, contributing to real-world projects in a dynamic environment.
- Developed a Widget Management POC using React.js, Ant Design (AntD) for UI components, and Chart.js for interactive data visualization.
- Designed Business Flow diagrams, Use Case diagrams, Data Dictionary, and API Specifications to support system analysis and development.

2024 - Senior Project Project Advisor Onnline System

- Designed and developed a web-based platform to streamline communication between advisors and students, covering key academic processes such as appointment scheduling, document tracking, and progress monitoring. Implemented using PHP with phpMyAdmin, HTML, CSS, and JavaScript.

2024 - Workshop LINE Dev Camp

- Participated in a hands-on workshop, learning to develop LINE Chatbots, utilize the LINE Messaging API, and integrate LINE with organizational systems, while enhancing development skills within the LINE Developer Ecosystem.

2023 - Mini Project Game programming

- Created an action-adventure 3D game using the Unity program.

2023 - Mini Project Fundamentals of Database Systems

- Created a technology system for streaming video platforms.

2023 Mini project System Analysis and Design

- System to promote drinking water.
